This part should describe the framework for your country's implementation, and not experience in the application of the Convention.

Article 1

Definitions

I.1. Is the definition of impact for the purpose of the Convention the same in your legislation as in article 1?

- (a) Yes
- (b) Yes, with some differences (please provide details):

The definition is part of the definition for the environmental impact assessment. Impact on human beings isn't limited to health and danger. Social-economic aspects aren't mentioned. But the national legislation also declares that all definitions of the Convention are applicable if nothing else is defined in the national legislation.

- (c) No (please provide the definition):
- (d) There are no definitions of impact in the legislation

Your comments:

I.2. Is the definition of transboundary impact for the purpose of the Convention the same in your legislation as in article 1? Please specify each below.

- (a) Yes
- (b) Yes, with some differences (please provide details):
- (c) No (please provide the definition):
- (d) There are no definitions of transboundary impact in the legislation

Your comments:

Liechtenstein doesn't make a distinction between "impacts" and "transboundary impacts". Therefore there is no special definition for "transboundary impact". The case of (transboundary) impacts with Liechtenstein as an affected party or Liechtenstein as the party of origin (for the impacts) is covered in Part D, Art. 18, 19 and 20 of the legislation. But again the national legislation also declares that all definitions of the Convention are applicable if nothing else is defined in the national legislation.

I.3. Please specify how major change is defined in your national legislation:

A major change may have a serious impact on the environment.

I.4. How do you identify the public concerned? Please specify (more than one option may apply):

- (a) Based on the geographical location of the proposed project
- (b) By making the information available to all members of the public and letting them identify themselves as the public concerned
