Subject: Letter requesting meeting with regard to Aarhus Covention and systematic non-compliances of Irish State with Environmental Acquis

To: Liam Cashman / CHAP (2010)00645 / EU Commission in Dublin

Please find attached letter with regard to the above. We would be grateful for a meeting to discuss these issues and the measures proposed to resolve the current completely unacceptable situation in Ireland. The non-compliances with the Environmental Acquis are leading to huge job losses in industrial development. Furthermore the capital and operational costs of a policy of 40% of electricity to be generated by renewable sources (mostly wind based), which is neither economically or environmentally justified, cannot be sustained by this economy and will lead to ever increasing job losses in an increasingly uncompetitive manufacturing sector.

Regards
