Subject: Re: Invitation to comment on third draft of the Aarhus Convention's Recommendations on Public Participation in Decision-making in Environmental Matters, deadline 15 April 2013

..."participation of NGOs and other members of the public in the advisory bodies can not replace a wide range of public."

My suggestion is that - instead of the phrase "can not replace a wide range of public" - to write "can not involve a wide range of public", because it is a responsibility of the NGOs to be representative for their target groups.

Best regards,

Petru Botnaru
