TABLE OF CONTENTS

INTRODUCTION	1
--------------------	---

I Sample Design Guidelines Michelle Simard, Sarah Franklin

1. Introduction.....	5
2. Survey Design Guidelines	5
2.1 GGS Longitudinal target population: the resident non-institutionalized population aged 18-79	5
2.2 GGS survey population: may exclude up to 5% of the target population	6
2.3 Survey frame: list versus area frame	6
2.3.1 <i>Tips and Guidelines</i>	7
2.4 Perform probability sampling.....	7
2.5. Survey designs.....	7
2.5.1 <i>Stratification</i>	8
2.6 Time between waves: 3 years; minimum 3 waves	9
2.7 Minimum number of respondents at wave 3 required for the longitudinal sample.....	9
3. Sample size determination.....	9
3.1 Using list frame.....	9
3.2 Using area frame and estimation precision.....	10
3.2.1 <i>Sampling error</i>	10
3.2.2 <i>How to calculate the sample size required to satisfy a given level of precision</i>	11
3.3 Wave 1 sample size must be adjusted for anticipated nonresponse and attrition across the waves.....	11
4. Guidelines for response and attrition rate	12
4.1 Over-sampling of subpopulations	12
5. Cross-sectional samples	12
6. Other important issues.....	12
6.1 When calculating the final estimation weights, avoid large adjustments to the sample design weights and validate GGS estimates with other sources	12
6.2 Determine tracing procedures	13
6.3 Define and code non-respondents	13
6.4 Calculate replicate weights for variance estimation	13
7. Documentation of the sample design.....	14
References.....	14

II Wave 1 Questionnaire Manual

Andres Vikat, Gijs Beets, Francesco Billari, Christoph Bühler, Aline Désesquelles,
Tineke Fokkema, Alphonse L. MacDonald, Gerda Neyer, Ariane Pailhé, Antonella Pinnelli,
Anne Solaz, Zsolt Spéder

1. Generations and Gender Survey	17
2. Questionnaire and Interviewing	19
3. Specific Instructions	21
Start of Interview	21
Section 1: Household	21
Section 2: Children	23
Section 3: Partnerships	25
Section 4: Household Organisation and Partnership Quality	28
Section 5: Parents and Parental Home	28
Section 6: Fertility	29
Section 7: Health and Well-Being	30
Sections 8 and 9: Activity and Income	30
Section 10: Household Possessions, Income and Transfers	31
Section 11: Value Orientations and Attitudes	31
Section 12: Interviewer Observations	31
Section 13: Interviewer Report	31
Optional Sub-Module A: Nationality and Ethnicity	32
Optional Sub-Module B: Previous Partners	32
Optional Sub-Module C: Intentions of Breaking Up	32
Optional Sub-Module D: Housing	32

III Wave 1 Questionnaire

**Andres Vikat, Gijs Beets, Francesco Billari, Christoph Bühler, Martine Corijn,
Aline Désesquelles, Tineke Fokkema, Alphonse L. MacDonald, Gerda Neyer, Ariane Pailhé,
Antonella Pinnelli, Anne Solaz, Zsolt Spéder**

1. Core Questionnaire	35
Section 1: Household.....	36
Section 2: Children	39
Section 3: Partnerships	47
Section 4: Household Organisation and Partnership Quality	55
Section 5: Parents and Parental Home	59
Section 6: Fertility	68
Section 7: Health and Well-Being.....	74
Section 8: Respondent’s Activity and Income.....	78
Section 9: Partner’s Activity and Income	87
Section 10: Household Possessions, Income and Transfers	93
Section 11: Value Orientations and Attitudes.....	97
Section 12: Interviewer Observations	101
Section 13: Interviewer Report	102
2. Optional Sub-Modules of the Questionnaire	103
Optional Sub-Module A: Nationality and Ethnicity.....	103
Optional Sub-Module B: Previous Partners.....	105
Optional Sub-Module C: Intentions of Breaking Up	109
Optional Sub-Module D: Housing	110
