Customs	94	42
Logistics	73	40

Greek National Trade Facilitation 2013-2014

What next?

Q4 2014: Moving towards a Greek Single Window Platform

Q3&4 2014 Towards Greek Single Window

Greece:

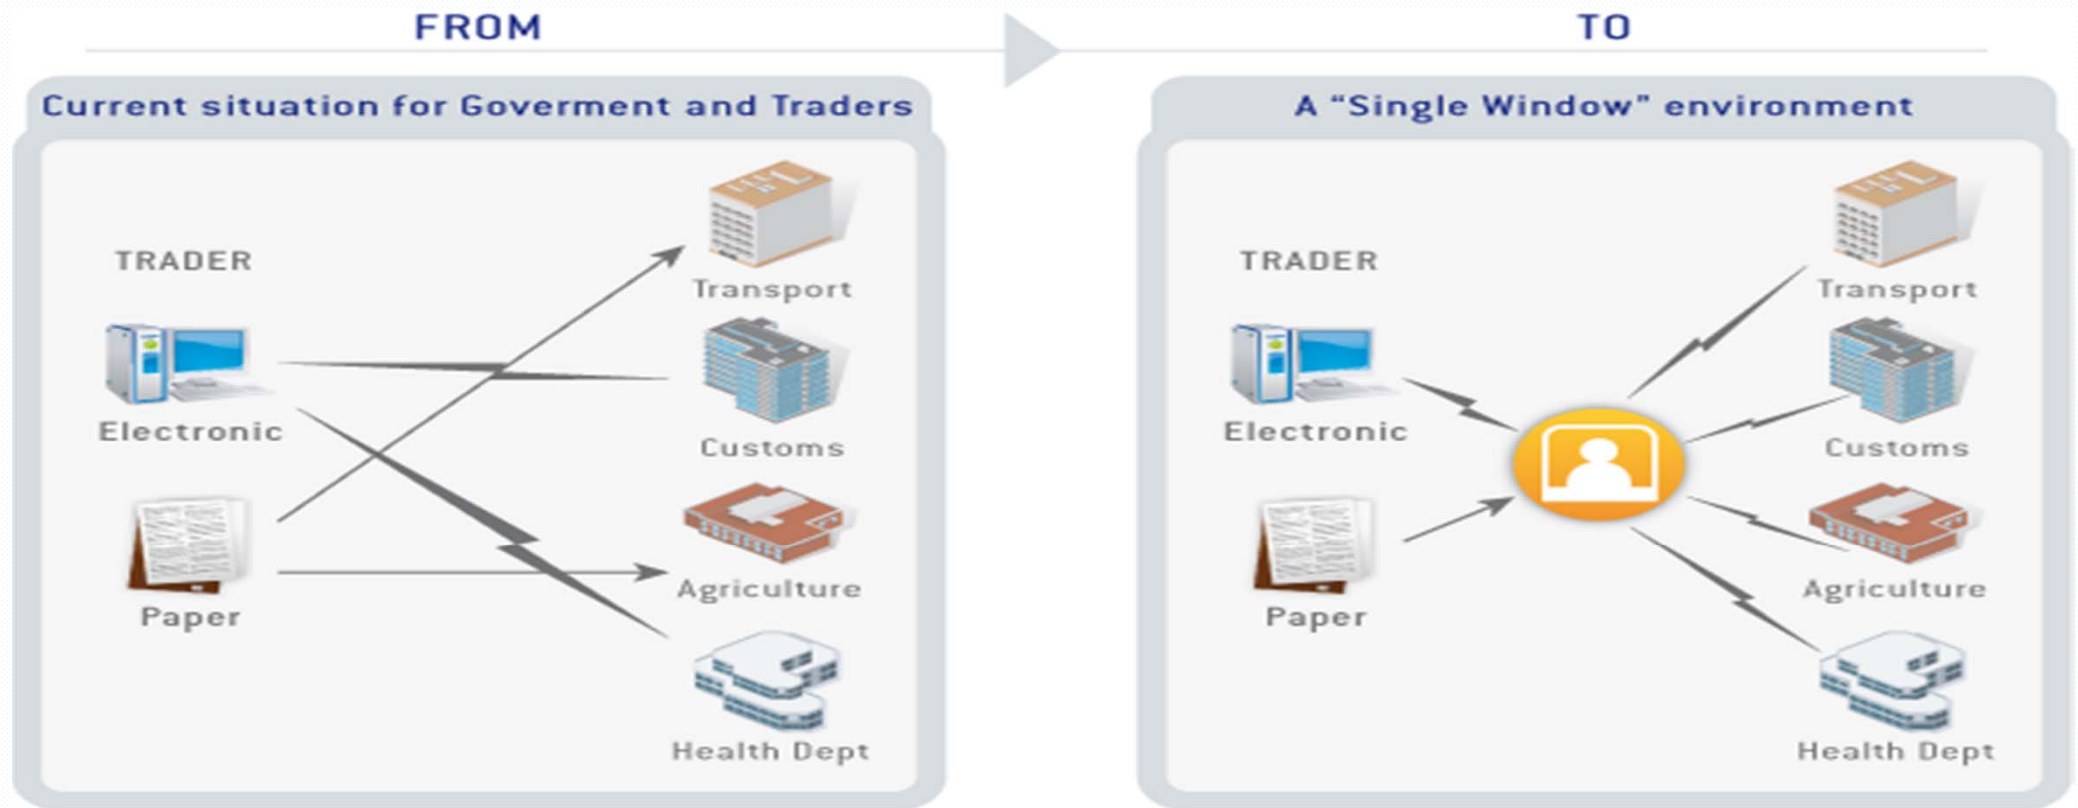

- Processes and procedures are improving
- Intra-agency systems in some administrations have matured
- Communication and collaboration between Government agencies strengthened

EU and Global:

- Large EU IOS projects: DG TAXUD, DG MOVE, ..
- IOS has become a global trend
- WTO TF Agreement on the horizon

What a Single Window is

- ❑ Establish a platform for collaboration between stakeholders
- ❑ Use eBusiness technology as a tool

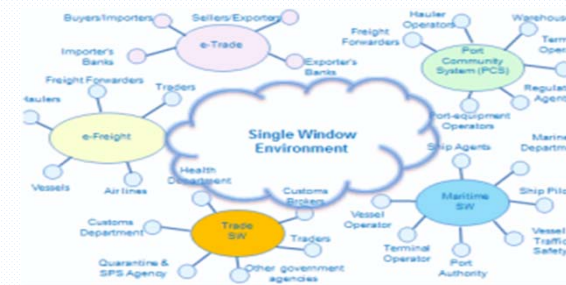

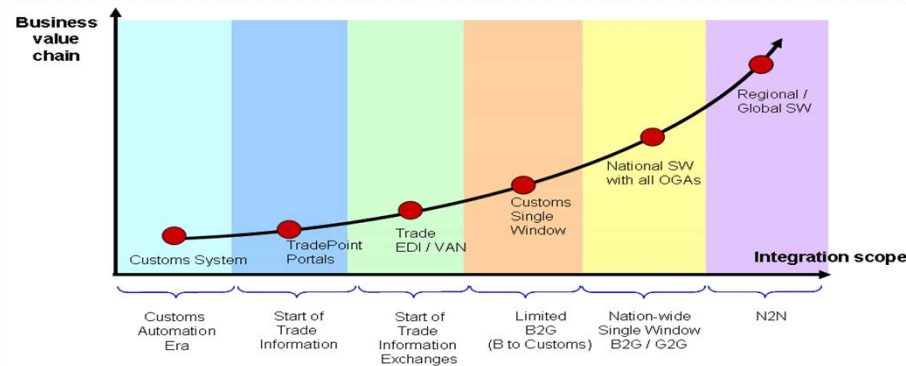

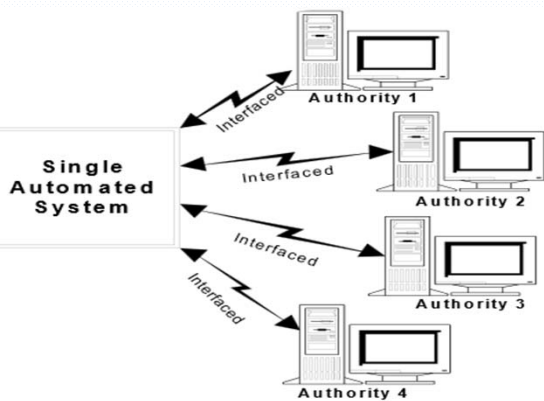

What is a Single Window?

One question, many answers: «our e-Customs system, our e-logstics system, our Port Community System, our national electronic trade platform, our eMaritime SW, ..»

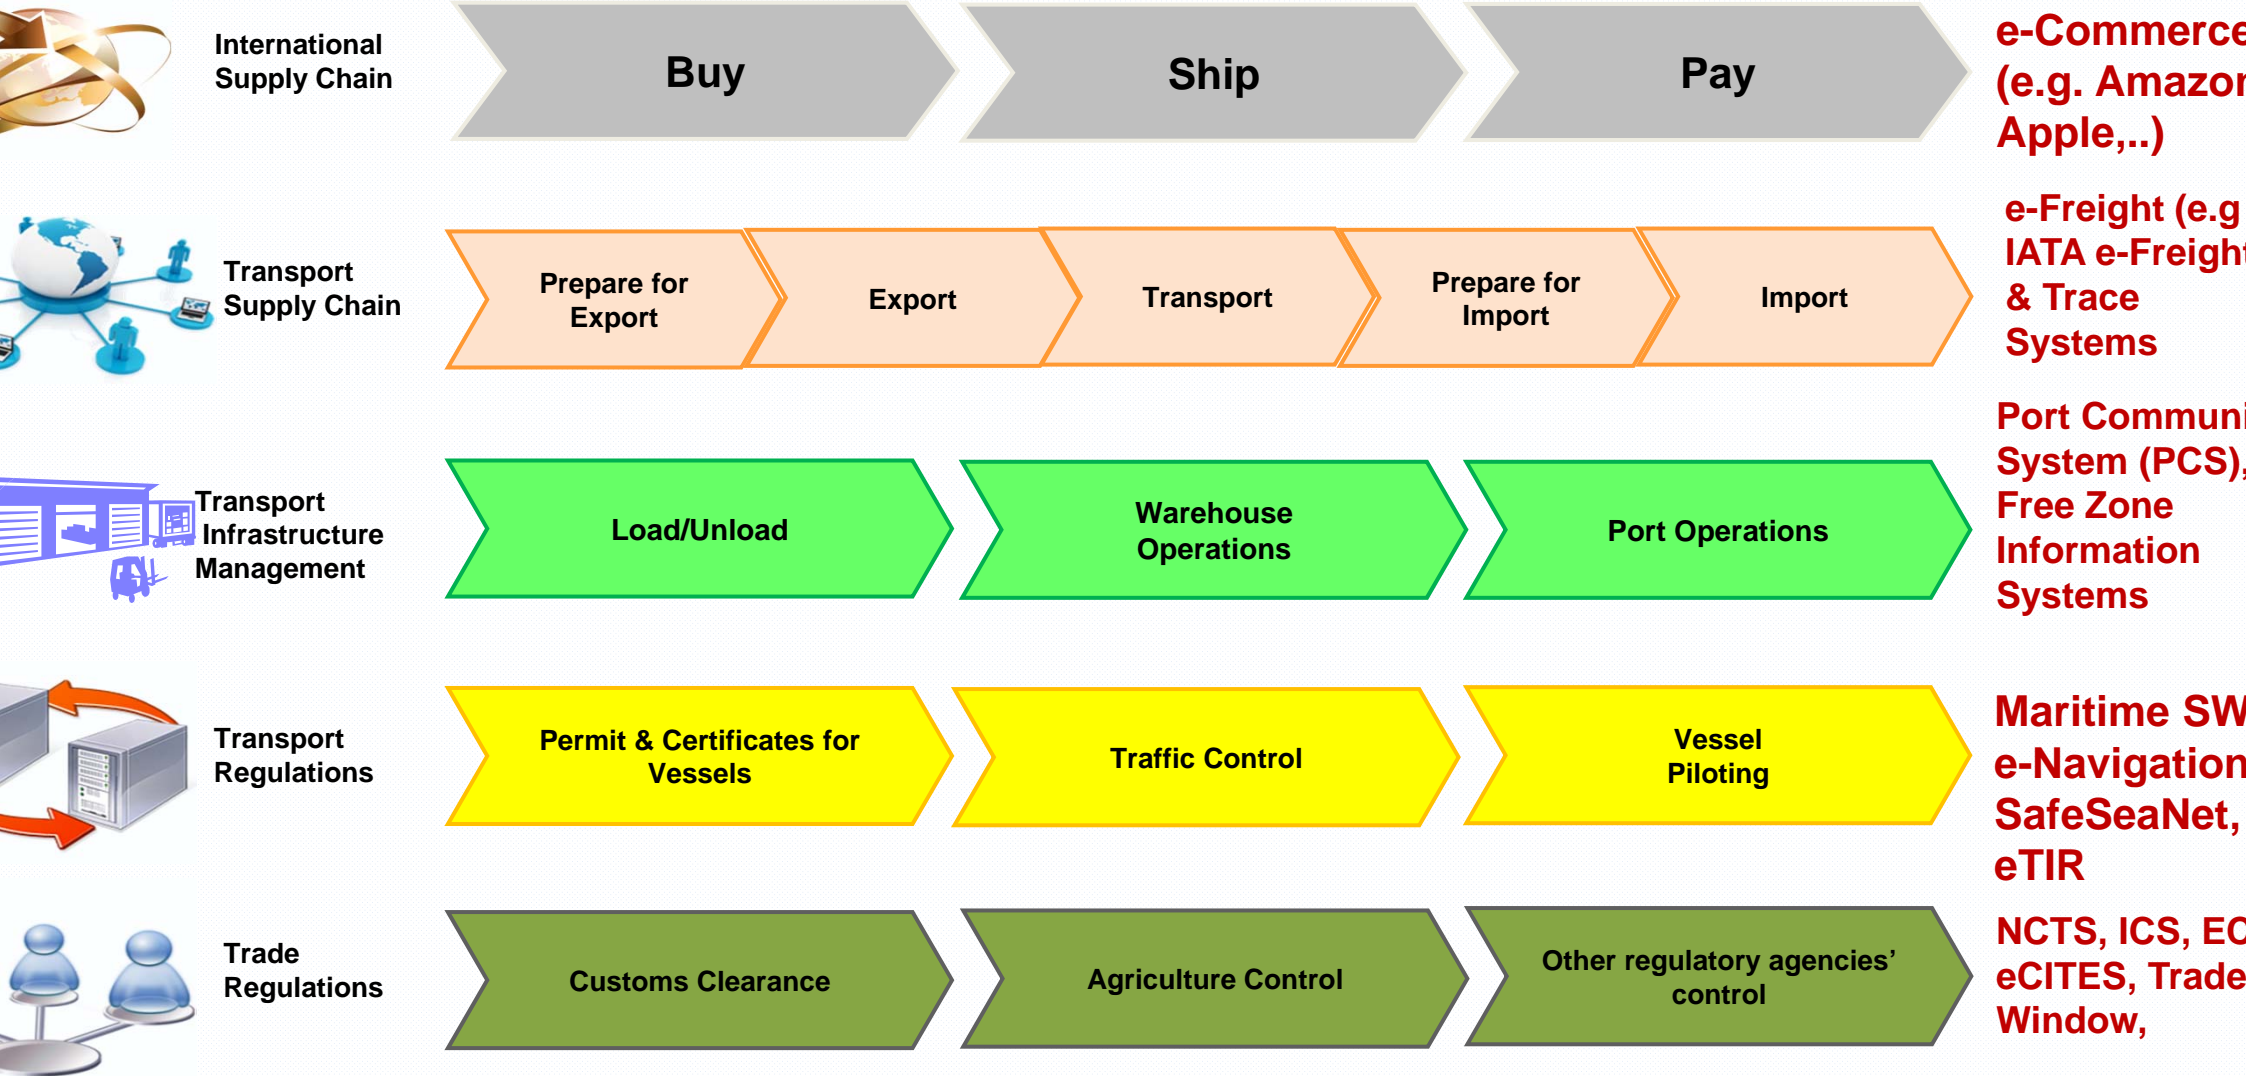

- How do stakeholders collaborate?
- How is the information exchange organised?
- What are the objectives, business models, ...

→ Single Window Architecture

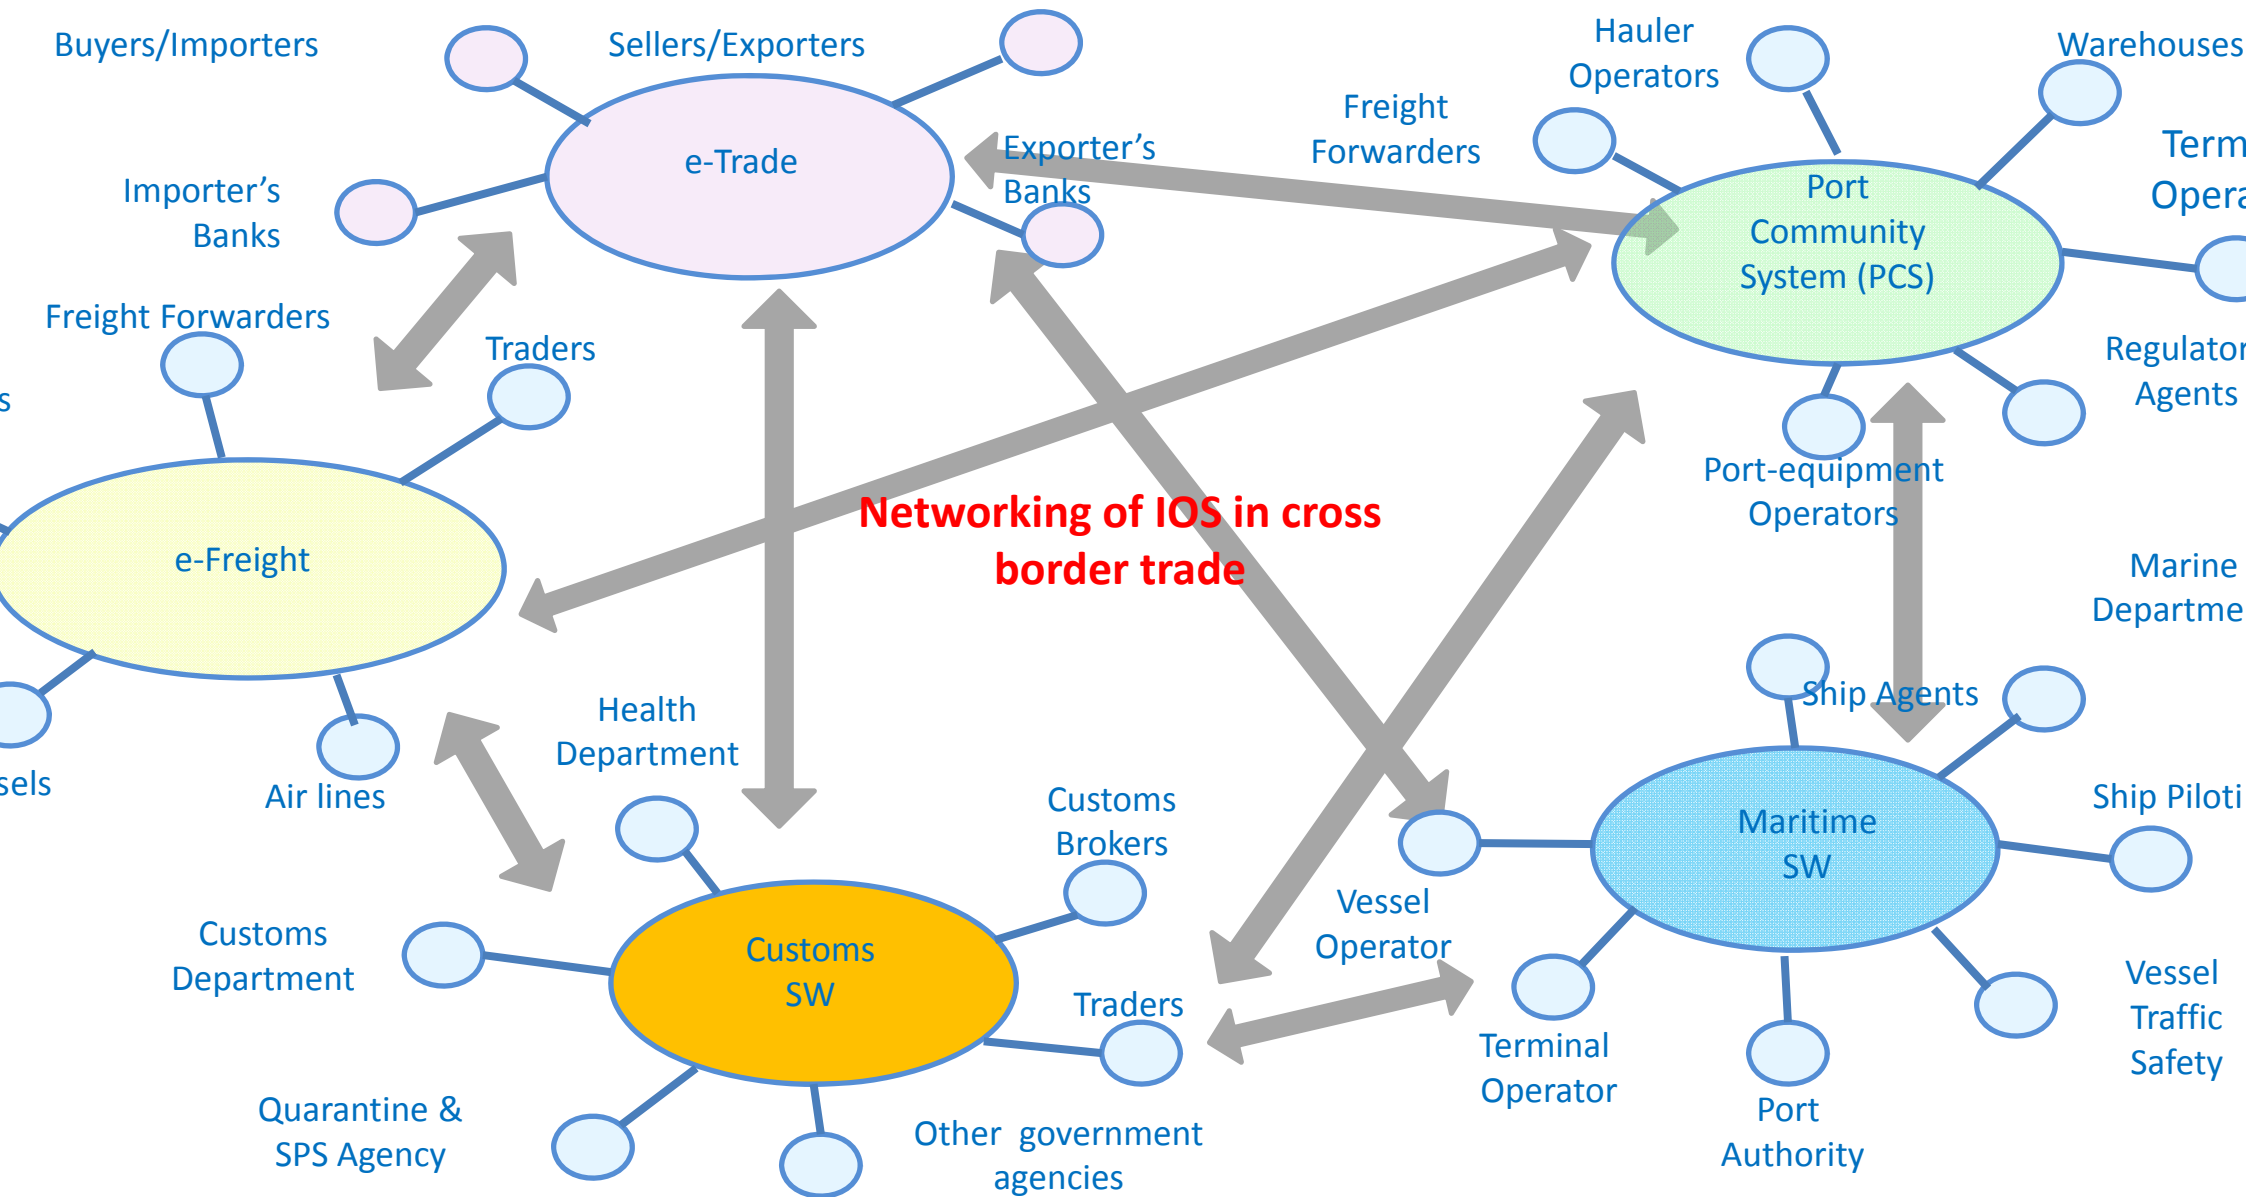

W

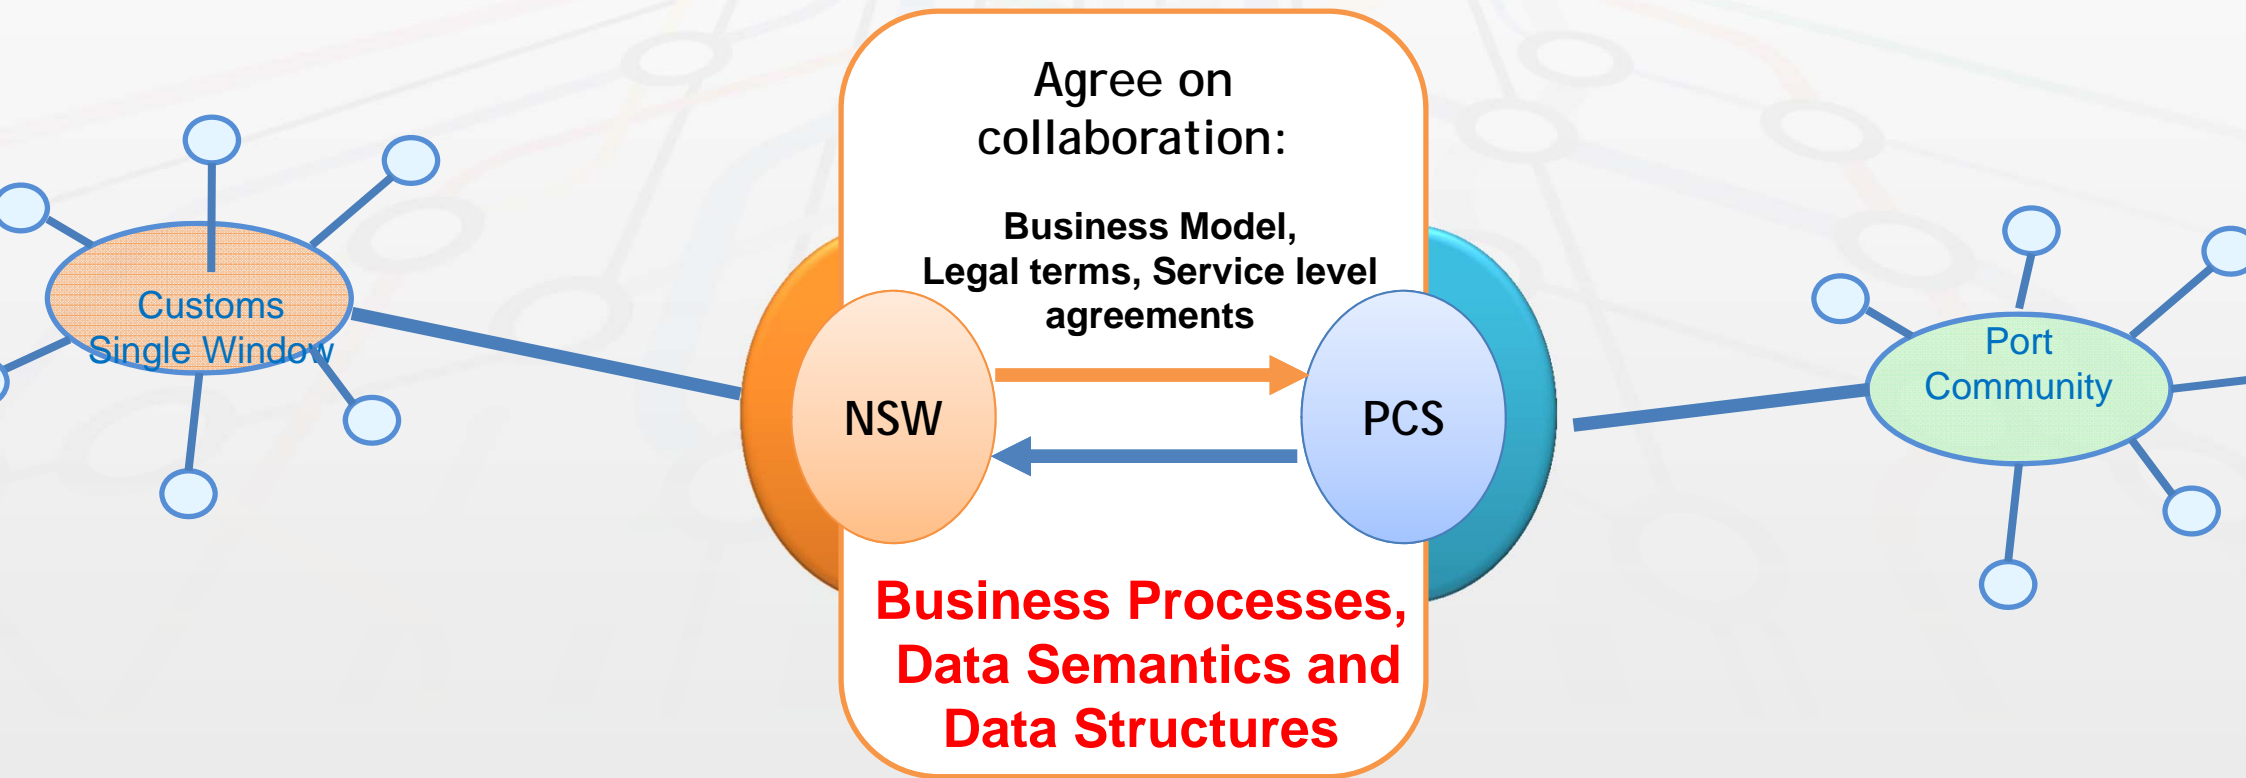

SW in Europe: Inter-Organization Information Systems (IOS)

Single Window Architecture Greece: A Network of IOS for efficient cross-border trade

What could be a suitable framework to encourage IOS collaboration?

Support to Data Harmonization in Greece

Action 1: Support decision makers from Greek Ministries: to adopt international standards for the implementation of the EU Single Window programme in Greece and to **set up the structures (organization, mandate, finance) required for a DH process in Greece.**

Support to Data Harmonization in Greece

Action 1: Support **decision makers from Greek Ministries:** to adopt international standards for the implementation of the EU Single Window programme in Greece and to **set up the structures (organization, mandate, finance) required for a DH process in Greece.**

Action 2: Provide **technical training** and support to Greek **data modelers and technical experts** and **develop a small set of electronic trade documents to be used in Greece**

Participants will learn how to simplify Greek paper documents, develop data model and dematerialize trade documents.

Format: Workshop, follow up mission, advisory services and technical support through Web/internet

Time frame: October to December 2014

In this workshop..

- What are the relevant international standards?
- How is the EU using these standards in policy initiatives?
- What can standards do for us in Greece?
- What do we need to do to adapt these standards to our needs?
- WCO DM, CCTS, CCL: How does it work?
- How can we develop a Greek electronic certificate?
- Lets go!

ank You
