A Background Analysis on Transparency and Traceability in the Garment Value Chain

Tuesday, 26 September, 2017

Circular Economy in textile & clothing manufacturing

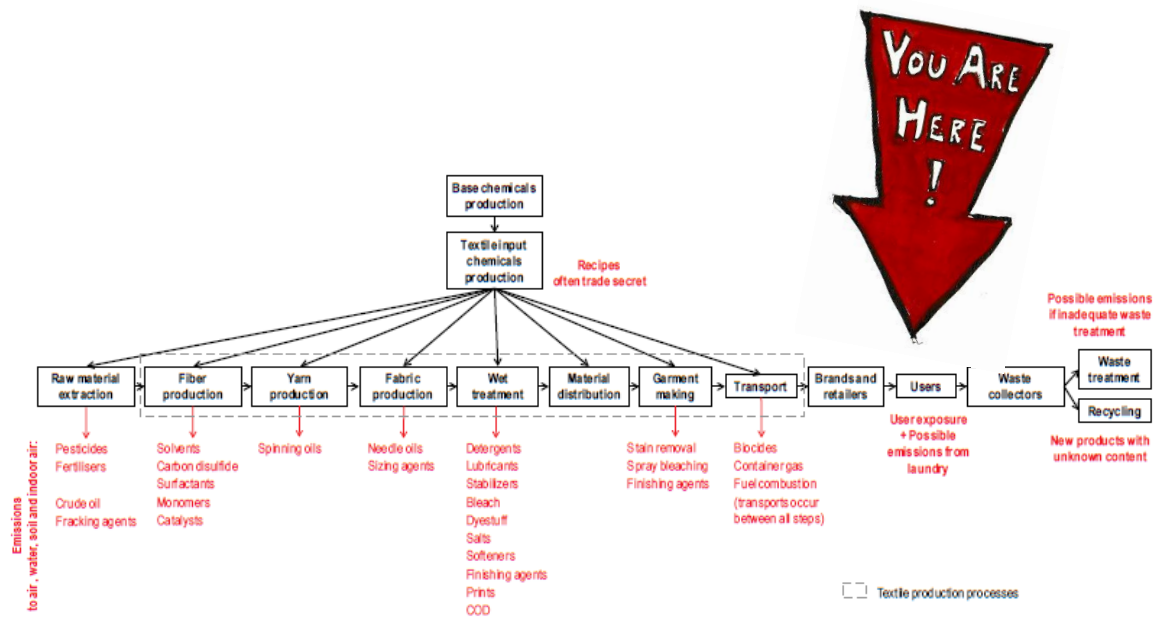

177.700 EU companies

Traceability for sustainable value chains

How is a textile made?

Traceability for sustainable value chains

Need Knowledge

1. Strategic decisions, *what info do we need?, how to check?*
2. Textile & Apparel specifics, *where is the info?*
3. IT technicalities, *how do we share it?*

Need consensus

Visibility

A sustainability enabler, as long as it is viewed

Wait

Traceability for sustainable value chains

Critical Mass, *how do we get it?*

Engage in partnership with industry & stakeholders
Relevant players shall be on board

Table down all issues and let's talk about it

Build on based on successful experiences*

Move on

* e.g. multiannual collaboration under OECD, SMEs with eBIZ
