INLAND TRANSPORT COMMITTEE

World Forum for Harmonization of Vehicle Regulations (WP.29)

Working Party on Lighting and Light-Signalling (GRE)  
(Fiftieth session, 7-11 April 2003,  
agenda item 2.1.)

PROPOSAL FOR DRAFT AMENDMENTS TO REGULATION No. 3

(Retro-reflecting devices)

Transmitted by the expert from the Working Party "Brussels 1952" (GTB)

Note: The text reproduced below was prepared by the expert from GTB in order to align the provisions of Regulation No. 3 to paragraph 2.9.3. of Regulation No. 48. The suggested amendments to the Regulation are marked in **bold** characters.

---

Note: This document is distributed to the Experts on Lighting and Light-Signalling only.

**A. PROPOSAL**

Paragraph 3.1.1., amend to read:

"... geometrically the position(s) in which the retro-reflecting device may be fitted to the vehicle, **in particular the limits of the illuminating surface used for the photometric measurement of the sample.** The drawings must show ..."

Annex 7, paragraph 2., amend to read:

"2. For photometric measurements, only the illuminating surface **defined by the planes contiguous to the outermost parts of the optical system of the retro-reflecting device as indicated by the manufacturer and** contained within a circle of ..."

\* \* \*

**B. JUSTIFICATION**

The amendment to paragraph 2.9.3. of Regulation No. 48 (Supplement 3 to the 02 series of amendments) introduced into the definition of the illuminating surface of a retro-reflector the reference to the declaration of this surface by the applicant during type approval of the device. Regulation No. 3 has to be amended to provide for this procedure.
