

### 3.2.2

#### **Table B: Alphabetic index of substances and articles of ADR**

This index is an alphabetical list of the substances and articles which are listed in the UN numerical order in Table A of 3.2.1. It does not form an integral part of ADR. It has been submitted neither to the Working Party on the Transport of Dangerous Goods of the Inland Transport Committee for checking and approval nor to the Contracting Parties to ADR for formal acceptance. It has been prepared, with all necessary care by the Secretariat of the United Nations Economic Commission for Europe, in order to facilitate the consultation of Annexes A and B, but it cannot be relied upon as a substitute for the careful study and observance of the actual provisions of those annexes which, in case of conflict, are deemed to be authoritative.

***NOTE 1:** For the purpose of determining the alphabetical order the following information has been ignored, even when it forms part of the proper shipping name: numbers; Greek letters; the abbreviations "sec" and "tert"; and the letters "N" (nitrogen), "n" (normal), "o" (ortho), "m" (meta), "p" (para) and "N.O.S." (not otherwise specified).*

***NOTE 2:** The name of a substance or article in block capital letters indicates a proper shipping name (see 3.1.2).*

***NOTE 3:** The name of a substance or article in block capital letters followed by the word "see" indicates an alternative proper shipping name or part of a proper shipping name (except for PCBs) (see 3.1.2.1).*

***NOTE 4:** An entry in lower case letters followed by the word "see" indicates that the entry is not a proper shipping name; it is a synonym.*

***NOTE 5:** Where an entry is partly in block capital letters and partly in lower case letters, the latter part is considered not to be part of the proper shipping name (see 3.1.2.1).*

***NOTE 6:** A proper shipping name may be used in the singular or plural, as appropriate, for the purposes of documentation and package marking (see 3.1.2.3).*

***NOTE 7:** For the exact determination of a proper shipping name, see 3.1.2.*

TRINITROTOLUENE MIXTURE CONTAINING TRINITROBENZENE AND HEXANITROSTILBENE	0389	1	Vanadium oxysulphate, see	2931	6.1	
TRINITROTOLUENE AND TRINITROBENZENE MIXTURE	0388	1	VANADIUM OXYTRICHLORIDE	2443	8	
TRINITROTOLUENE, WETTED with not less than 10% water, by mass	3366	4.1	VANADIUM PENTOXIDE, non- fused form	2862	6.1	
TRINITROTOLUENE, WETTED with not less than 30% water, by mass	1356	4.1	VANADIUM TETRACHLORIDE	2444	8	
TRIPROPYLAMINE	2260	3	VANADIUM TRICHLORIDE	2475	8	
TRIPROPYLENE	2057	3	VANADYL SULPHATE	2931	6.1	
TRIS-(1-AZIRIDINYL) PHOSPHINE OXIDE SOLUTION	2501	6.1	Varnish, see	1263	3	
TRITONAL	0390	1		3066	8	
Tropilidene, see	2603	3		3469	3	
TUNGSTEN HEXAFLUORIDE	2196	2		3470	8	
			<del>Vehicle, flammable gas powered</del>	3166	9	Not subject to ADR
