ECONOMIC COMMISSION FOR EUROPE

INLAND TRANSPORT COMMITTEE

Working Party on Road Transport
(Ninety-eighth session, 27-29 October 2004,
agenda item 6 (c))

HARMONIZATION OF REQUIREMENTS CONCERNING INTERNATIONAL ROAD
TRANSPORT AND FACILITATION OF ITS OPERATION

Consideration of the development of a Protocol to the CMR

Note by the secretariat

At its sixty-sixth session, the Inland Transport Committee noted that SC.1, which had before it two proposals, one submitted by UNIDROIT, the other by Germany, for a new draft Protocol to the CMR with a view to the introduction of an electronic consignment note, had at its ninety-seventh session requested the secretariat to write to member countries to ask them to define their preference as to the approach to be used in drafting the text of the Protocol. The Committee was informed that a questionnaire prepared for the purpose by the secretariat had been sent to the members of SC.1. It asked the secretariat to make a careful analysis of the replies and report to SC.1.

The replies to the secretariat questionnaire are contained in the present document. On the basis of the replies received, which show a clear majority in favour of the UNIDROIT proposal, SC.1 will be invited to pronounce on the follow-up to be given to this survey. It could in particular be proposed to hold an ad hoc meeting on the CMR in 2005 in order to finalize the text of the new Protocol.

Norway	UNIDROIT	Yes The regime laid down in the CMR presupposes written consignment documents. Adaptation to electronic documents calls for a supplement to the CMR article 5, as is suggested in the draft Protocol by UNIDROIT. In addition, we think it would improve the application of the CMR to electronic documents if also the handling of the three original copies of the consignment note were to be regulated in the draft Protocol.
