

Proposal for a Corrigendum to ECE/TRANS/WP.29/2006/133
(Draft 03 series of amendments to Regulation No. 78)

A. PROPOSAL

Annex 3

Paragraph 1.1.2.(b), amend to read:

"1.1.2. Low friction surface:

- a)
- b) the test area is a **clean ~~dry~~ and level** surface, with a gradient ≤ 1 per cent;
- c)"

B. JUSTIFICATION

The deletion of the word "dry" from the requirements of the test area for the low friction surface is just correcting a transfer error from gtr No. 3 (see para. 4.1.1.2.) to the 03 series of amendments to Regulation No. 78.
