

GEOTRANSMD

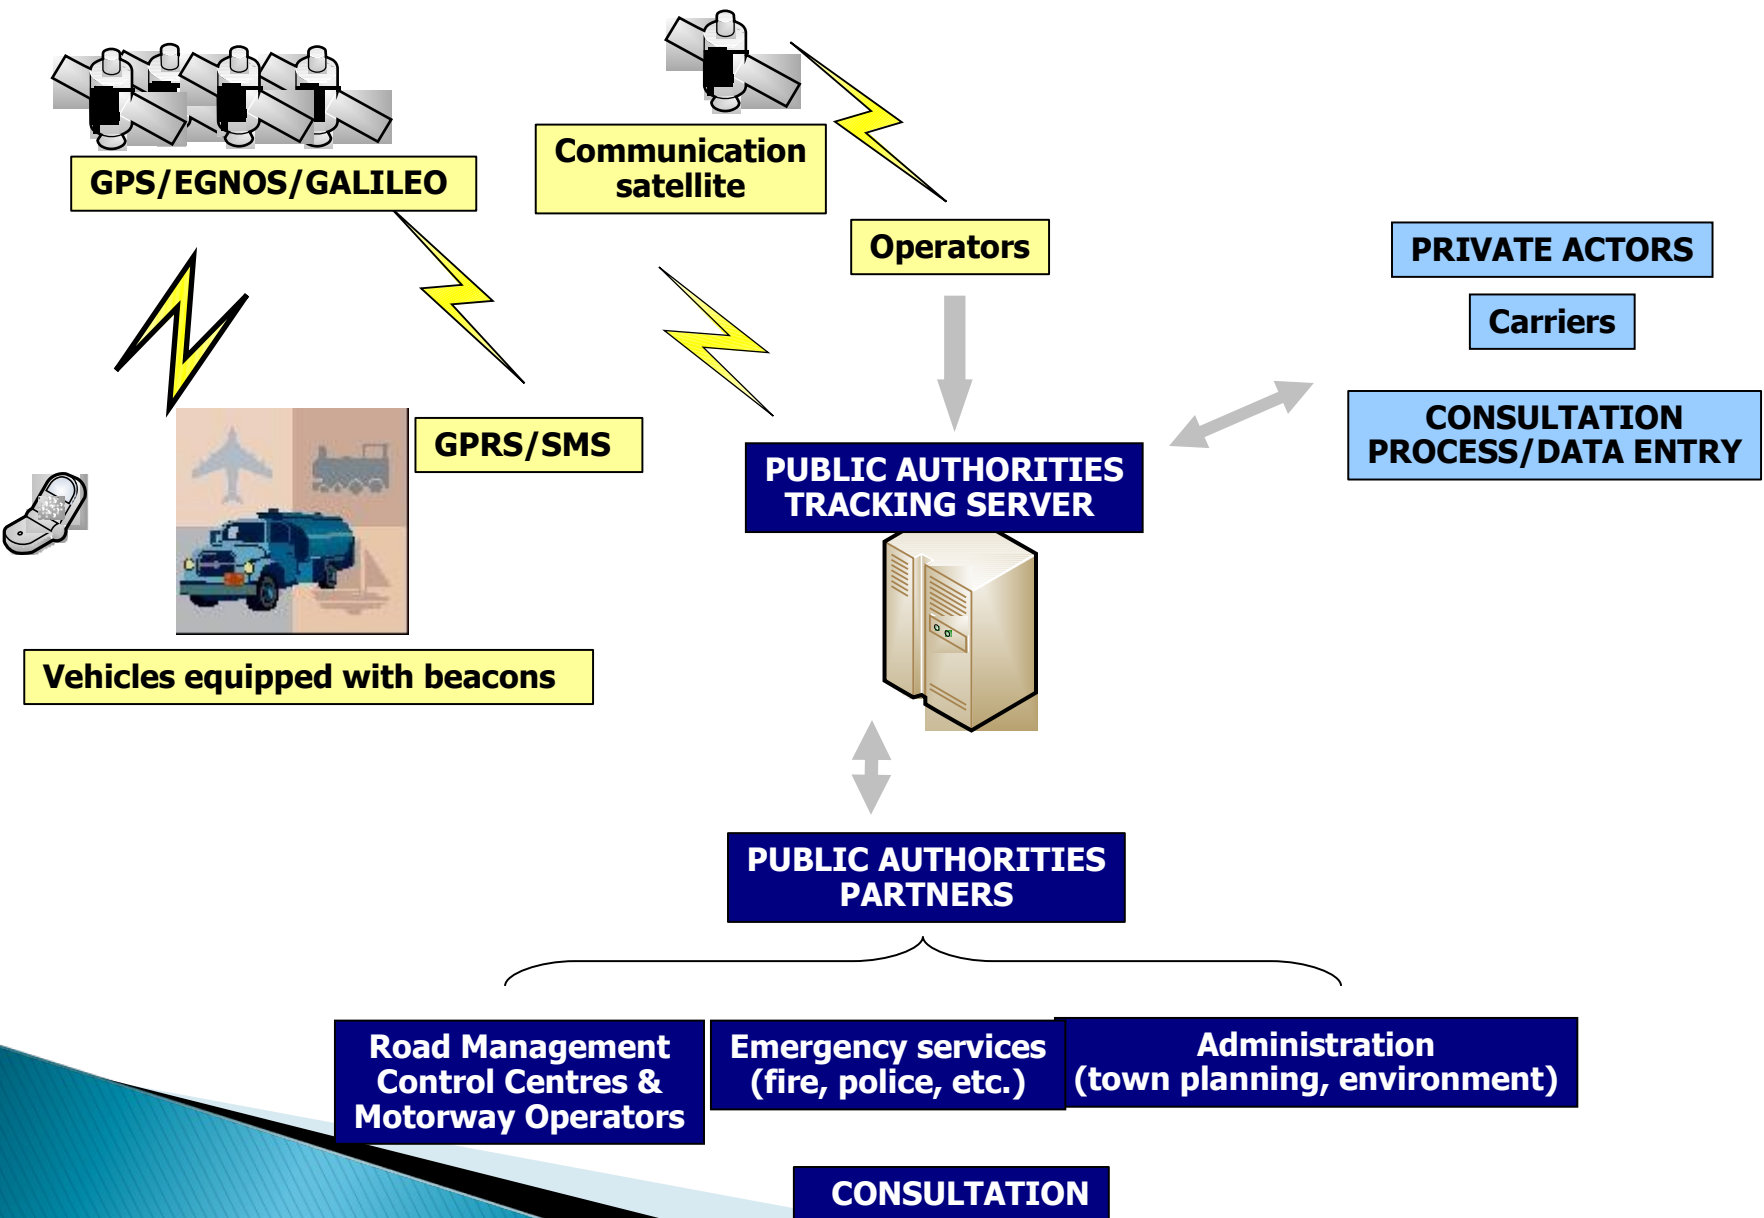

Following up the work of:

VISU-TMD (CETE Bordeaux)

TRANSCONTROL (Toulouse and
Bordeaux areas)

GEOFENCEMD (Lyon area)

VISU TMD: How does it work?

TRANSCONTROL

Objectives

•Development:

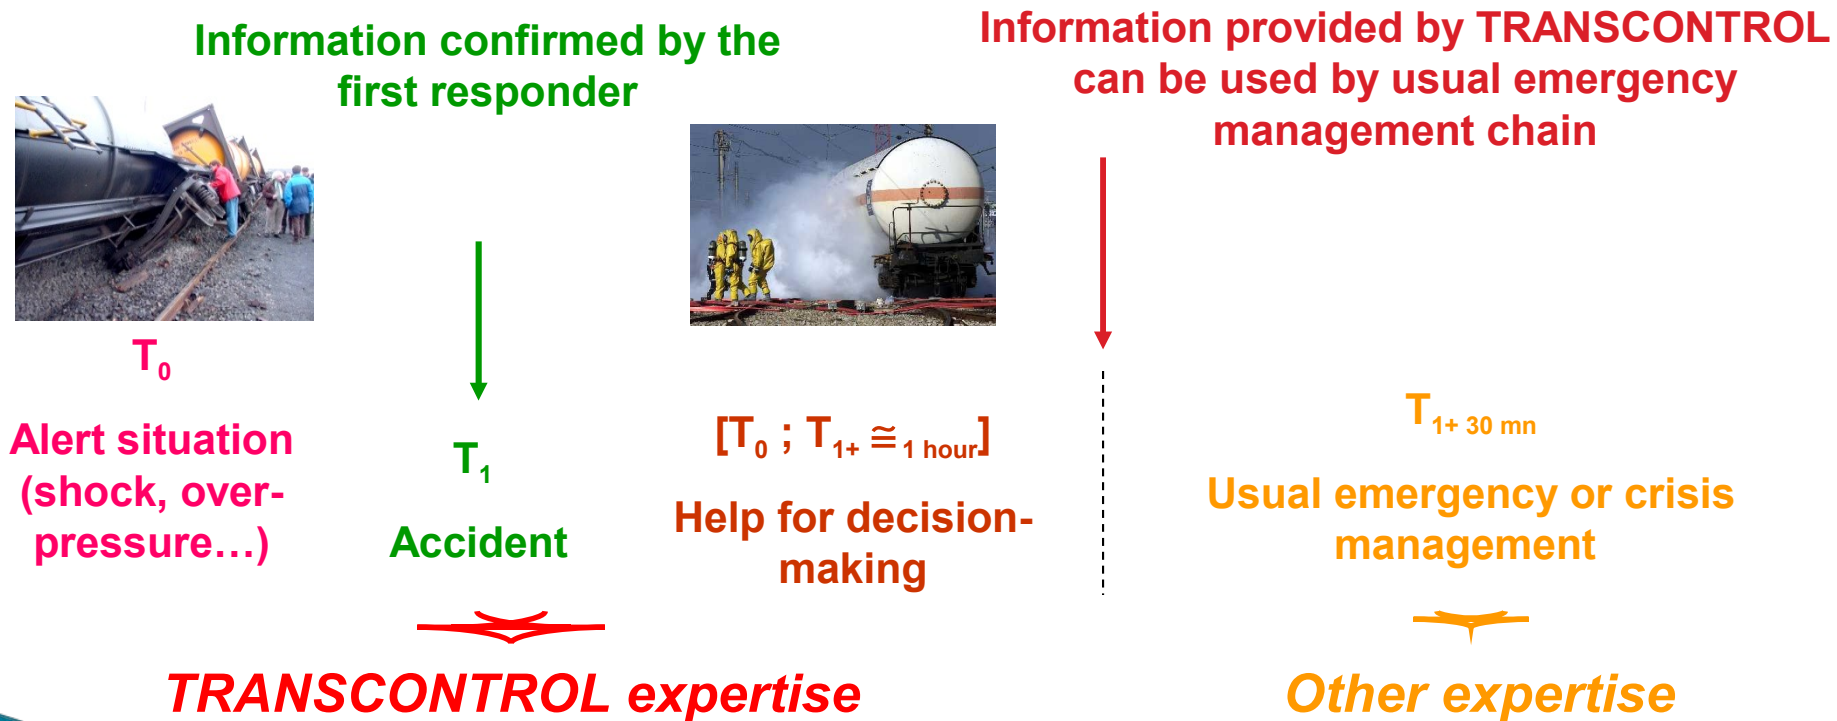

- Robust terminals installed on board vehicles (GNSS features + ADR-compliant)
- Application for Monitoring Transport of Dangerous Goods
 - Precise knowledge of the situation of transport of dangerous goods in a given zone
 - Improvement of decision-making process in case of an intervention:
 - Evaluation of situation & risks
 - Intervention & mitigation measures adapted to the situation

•Experimentation/validation:

- “Pilot” fleets will be equipped: road, inter-urban, school transport
- Test campaign in real operational conditions: experience feedback by end-users

TRANSCONTROL

GEOFENCEMD

Project deliverables (2012)_

•Vehicle Demonstrator(s) (heavy duty & distribution):

- *On-board system with data base*
- *V2I Communication devices*

•Decision Centre Demonstrator:

- *DG transport management platform*
- *Management of real time data, processing, sharing and distribution*

•Risk management analysis:

- *Reactivity, decision management*
- *Systemic risk management*
- *Impact on urban planning, transport infrastructure planning*

•Standards & Regulations

•A “Cost-Benefit” assessment for the different actors involved in the proposed systemic solution.

GEOTRANSMD

GEOTRANSMD

- **WP0: PROJECT MANAGEMENT**

- French coordination
- Coordination with German project
- Coordination with works of the UN Telematics Working Group

GEOTRANSMD

- **WP 1: STUDIES**

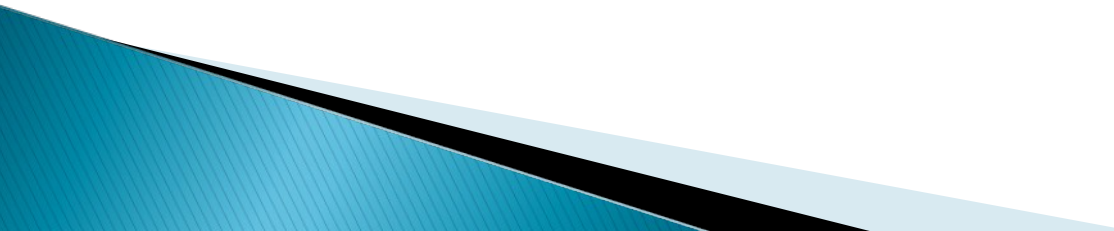

- Constraints
- On-going standardization
- Economic model
- Possible business plans

GEOTRANSMD

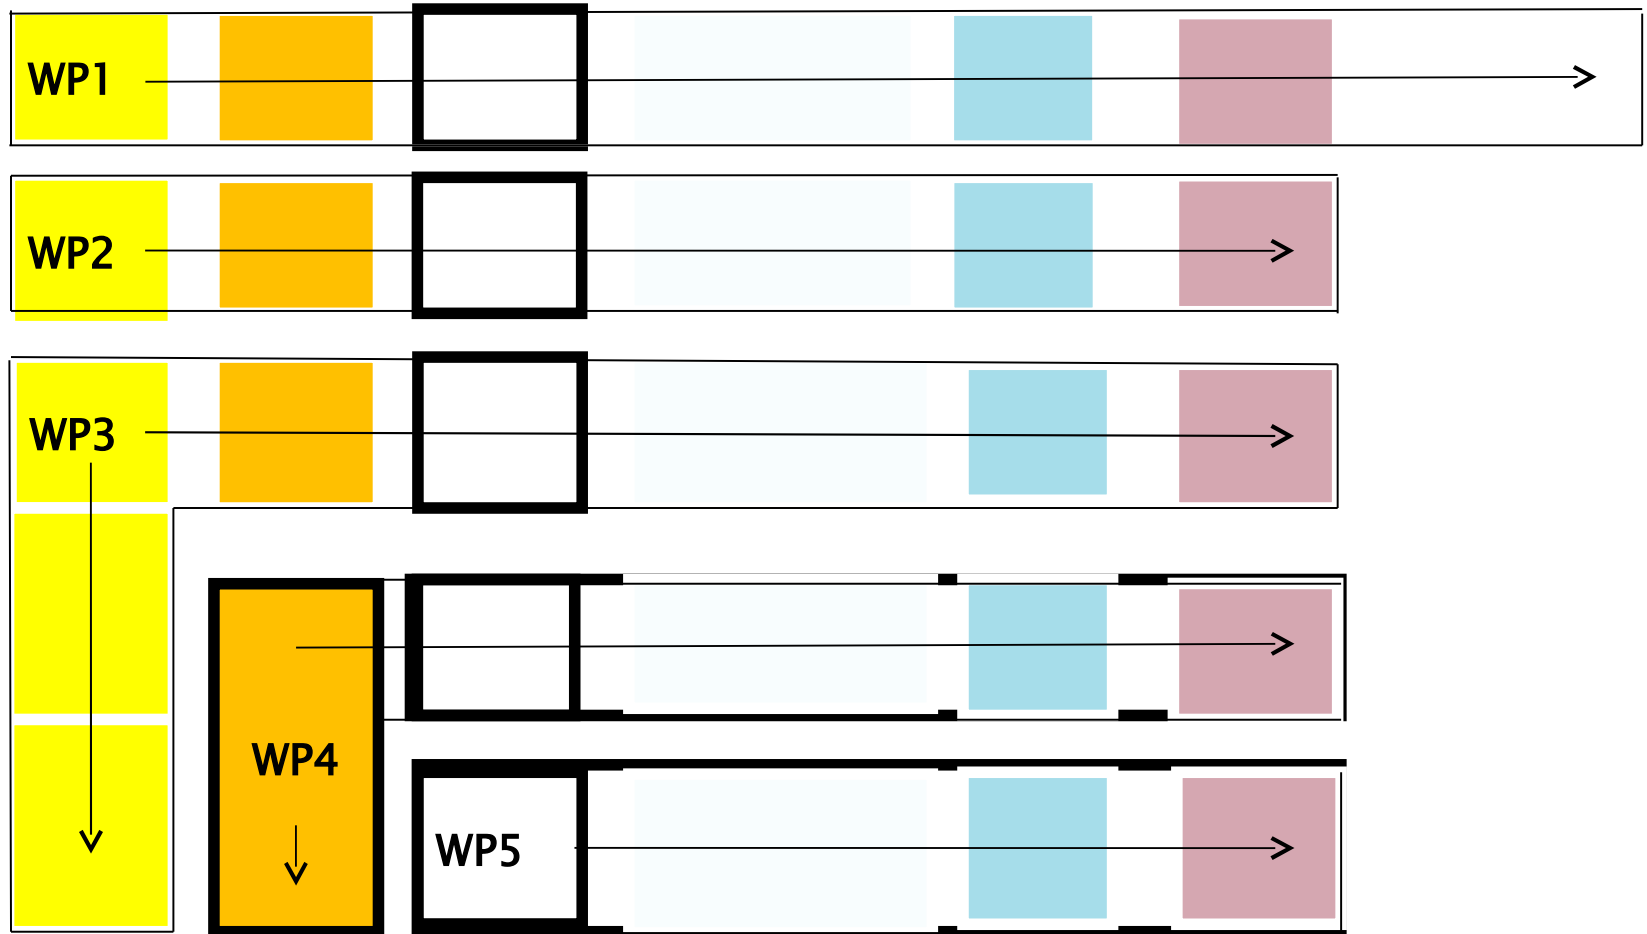

- **WP2: PRODUCT SPECIFICATIONS**

- Needs
- Detailed specifications
- Specifications of material products, software, communication for: Platform architecture, On board unit, centralised data base, XML exchange, Access software for actors, Access software for control authorities, statistics

GEOTRANSMD

- **WP 3: PRODUCTS DEVELOPMENT**
 - **WP 4: PROTOTYPES, FIELD TESTS, EVALUATION**
 - **WP 5: SERIAL PRODUCTION**
 - **WP 6: COMMUNICATION AND DISSEMINATION**
- 

WP0: Project Management

WP6: Communication & Dissemination
