Sixty-ninth session

Geneva, 8-11 April 2013

Item 5(j) of the provisional agenda

Collective amendments - Regulations Nos. 6, 7 and 48

Proposal for supplement 23 to the 02 series of amendments to Regulation No. 7 (front and rear position (side) lamps stop-lamps and end-outline marker lamp)

Submitted by the expert from Poland*

The text reproduced below was prepared by the expert from Poland (see informal document GRE-68-29). The modifications to the existing text of the UN Regulation are marked in bold for new or strikethrough for deleted characters.

* In accordance with the programme of work of the Inland Transport Committee for 2010–2014 (ECE/TRANS/208, para. 106, ECE/TRANS/2010/8, programme activity 02.4), the World Forum will develop, harmonize and update Regulations in order to enhance the performance of vehicles. The present document is submitted in conformity with that mandate.

I. Proposal

Add new paragraph 5.8., to read:

"5.8. To obtain type approval according this Regulation is required possibility to install lamp in question at least on one type of vehicle according requirements of Regulation No 48."

II. Justification

1. Regulation No 7 does not contain requirements regarding the change of luminance of the lamps. It is possible to obtain a type approval for a lamp which cannot be mounted on a vehicle according Regulation No. 48. But such lamps could be used as aftermarket parts and could be installed on used vehicles. This proposal is intended as a protection against such situations.
