

Proposal for amendments to ECE/TRANS/WP.29/GRE/2012/29

(Supplement 11 to the 04 series of amendments to Regulation No. 48)

I. Proposal

Paragraph 6.1.7.2., amend to read:

"6.1.7.2. It shall always be possible to switch the main-beam headlamps ON and OFF manually and to manually switch OFF the automatic control of the main-beam headlamps.

Moreover, the switching OFF, of the main-beam headlamps and of their automatic control, shall be by means of a simple and immediate manual operation; ~~(multi-step operations, such as the use of sub-menus is not allowed).~~"

Paragraph 6.22.7.1.3., amend to read:

"6.22.7.1.3. It shall always be possible to switch the main-beam headlamps, adaptive or non-adaptive, ON and OFF manually and to manually switch OFF the automatic control.

Moreover, the switching OFF, of the main-beam headlamps and of their automatic control, shall be by means of a simple and immediate manual operation; ~~(multi-step operations, such as the use of sub-menus is not allowed).~~"

II. Justification

The prohibition of sub-menus is considered fully in line with the objective of the proposal ECE/TRANS/WP.29/GRE/2012/29.

At the same time the proposal should not restrict the current and future design of control and display systems. Therefore we propose to delete the "multi-step operations".
