Item 6 (b) of the provisional agenda

Proposals of amendments to RID/ADR/ADN

Proposal

Proposal

5. The proposal is to amend the text of paragraph 5.5.3.3.3 as follows (new text is in bold):

“Packages containing a coolant or conditioner shall be carried in well ventilated vehicles and containers. **This provision does not apply when such packages are carried in a refrigerated unit that is in operation to preserve the load.**”

Note: The expert from France is aware of this problem only in relation to dry ice, but it might apply more generally to other coolants.
