Data collection through the Web Common Questionnaire

Ould Khou SID'AHMED

SPECA Workshop on Road Transport and Road Safety Statistics
**Ashgabat, Turkmenistan**
8-9 September 2016

Who manages the WebCoq?

Common Questionnaire

UNECE

Eurostat

ITF

Eurostat /ITF/UNECE Intersecretariat Working Group on Transport Statistics (IWG)

MISSION STATEMENT

- The IWG should contribute to the development of a coordinated statistical system for transport, in order for users to have access to high quality data.

- [Selection]

- This should be achieved by:·

- Leading the development towards harmonized definitions (as contained in the Glossary for Transport Statistics) and classifications, encouraging their use and keeping track of exceptions in the use of them

- Reducing the burden on the countries by coordinating and limiting common data collection ·

- Developing and improving the Common Questionnaire for Transport Statistics and promoting it as the main tool for common collection of transport statistical data

- Encouraging countries to share best practices

National focal points

- How to register
- Create the ECAS account by connecting on: https://circabc.europa.eu > Log In > Sign up
- Follow the instructions given under 'How to get an ECAS password and access CIRCABC'
- Connect to: https://webgate.ec.europa.eu/cq_transport/login/
- Enter the login/password and push "Login"

National focal points

Please complete all the fields:

- **National organisation;**
- **Default application language (English, French, German or Russian);**
- **Default glossary language**

National Statistics Authorities

- NSA have full access rights to WEBCOQ for your country

- NSA can delegate rights to Data Providers (DP) to complete parts of the Questionnaire

- User Manual for National Statistics Authorities (NSA) in the 'Transport statistics' group on CIRCABC: /CircaBC/ESTAT/transport/Library/common_questionnaire_1/8_miscellaneous/CQWeb_User_Guide_nsa

O. Sid'Ahmed

Steps to produce data

- ## Fill in the questionnaire (Data provider)

- ## Check the data (NSA)

- ## Put in production (Secretariat)

O. Sid'Ahmed

Structure of the questionnaire

- ## Railways
- ## Roads
- ## Navigable Inland Waterways
- ## Oil Pipelines

Railway Transport

- ## Infrastructure
- ## Transport equipment
- ## Enterprise-Economic performance
- ## Traffic
- ## Transport measurement

Road Transport

- Infrastructure
- Transport equipment
- Enterprise-Economic performance
- Traffic
- Transport measurement
- Accidents

Inland Waterways

- ## Infrastructure

- ## Transport equipment

- ## Enterprise-Economic performance

- ## Transport measurement

Oil Pipeline Transport

- ## Infrastructure

- ## Enterprise-Economic performance

- ## Traffic - Transport measurement

Data availability

- Very low for North America and EECCA countries
- Improvement through the use of the WebCoQ

Thank you for your attention
