

Georgia Road Safety Performance Review Capacity Building Workshop

**Hotel “Ambadori”
Kachreti, Georgia
26-27 April 2017**

The “Strengthening of the national road safety management capacities of selected developing and countries with economies in transition” project aims to help beneficiary Governments to identify the most critical road safety aspects and priority needs by preparing Road Safety Performance Reviews and offer capacity building training in the identified areas. In that sense the Project will assist countries to enhance national road safety management capacities. Furthermore, the Project aims to help countries to raise public awareness on road safety issues and sensitize public and non-governmental sectors on the need to set ambitious road safety targets and adopt specific measures to meet them.

The Georgia Road Safety Performance Review Capacity Building Workshop will be initiated by policy dialogue with national road safety stakeholders on the main Road Safety Performance Review findings with recommendations on actions to be taken. Back-to-back with the policy dialogue, capacity-building workshop on the pressing road safety topics identified by the Review will be held. The objective is to provide information, best practice and training in identified priority areas for national government officials and other road safety stakeholders from the NGO and private sector.

During two days event, the following will be discussed:

- Findings and recommendations of the first draft of Georgian Road Safety Performance Review
- UN legal framework for safe vehicles and safer vehicles pillar
- Speed management and speed/red light enforcement
- Combat against drink-driving

Following the policy dialogue, in collaboration with the beneficiary Government, Road Safety Performance Review will be finalized.
