- For IWVTA, the 02 series of amendments to UN Regulation No. 0 was adopted
- WP.29 encouraged GRs to review the question raised by IWG on DETA concerning the application of the Unique Identifier (UI) together with markings and to provide guidance on how to proceed based on two options:
 - Option 1: Using UI and keep installation marking and information on the part
 - Option 2: Using UI only for the approval marking and providing open access to the communication document, which would also contain the necessary installation marking
- See report in ECE/TRANS/WP.29/1149
