

Informal document N° 20
(49th GRRF, 29 Jan.- 2 Feb. 2001
agenda item 1.1)

POSSIBLE REVISION TO THE TEXT OF GRRF/2000/5/Rev.1

Paragraph 4.1.1 of Annex 13 to Regulation 13, amend to read:

- 4.1.1 Sensor anomalies, which cannot be detected under static conditions, shall be detected no later than when the vehicle speed exceeds 10 km/h ^{13/}. However, to prevent erroneous fault indication when a sensor is not generating a vehicle speed output, e.g. due to non rotation of a wheel(s), verification may be delayed but detected no later than when the vehicle speed exceeds 15 km/h.

Remaining text of GRRF/2000/5/Rev.1 remains unchanged.
