

Market Access Matrix :  
Local Service. Global Markets. On Time.

# Market Access Service : At Home on All Continents.

500 locations in 61 countries around the world.

## Service Description

We provide the support for the manufacturers to enter international markets with their products.

This includes:

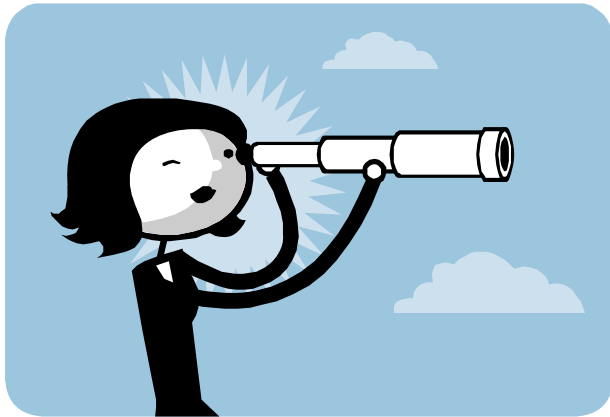

- Consulting about approval schemes
- Research about regulations
- Obtaining type approvals on behalf of the manufacturers or importers.

All based on our global TÜV Rheinland network

# Business Challenges for Retailers, Manufacturers

- Are there different regulatory requirements for countries ?
- What are the items covered by the latest release of regulation EC/XX/YY ?
- Which markets can I target if my product satisfies Regulation X,Y ?
- Is there a solution to efficiently manage the product technical file requirements for my products ?

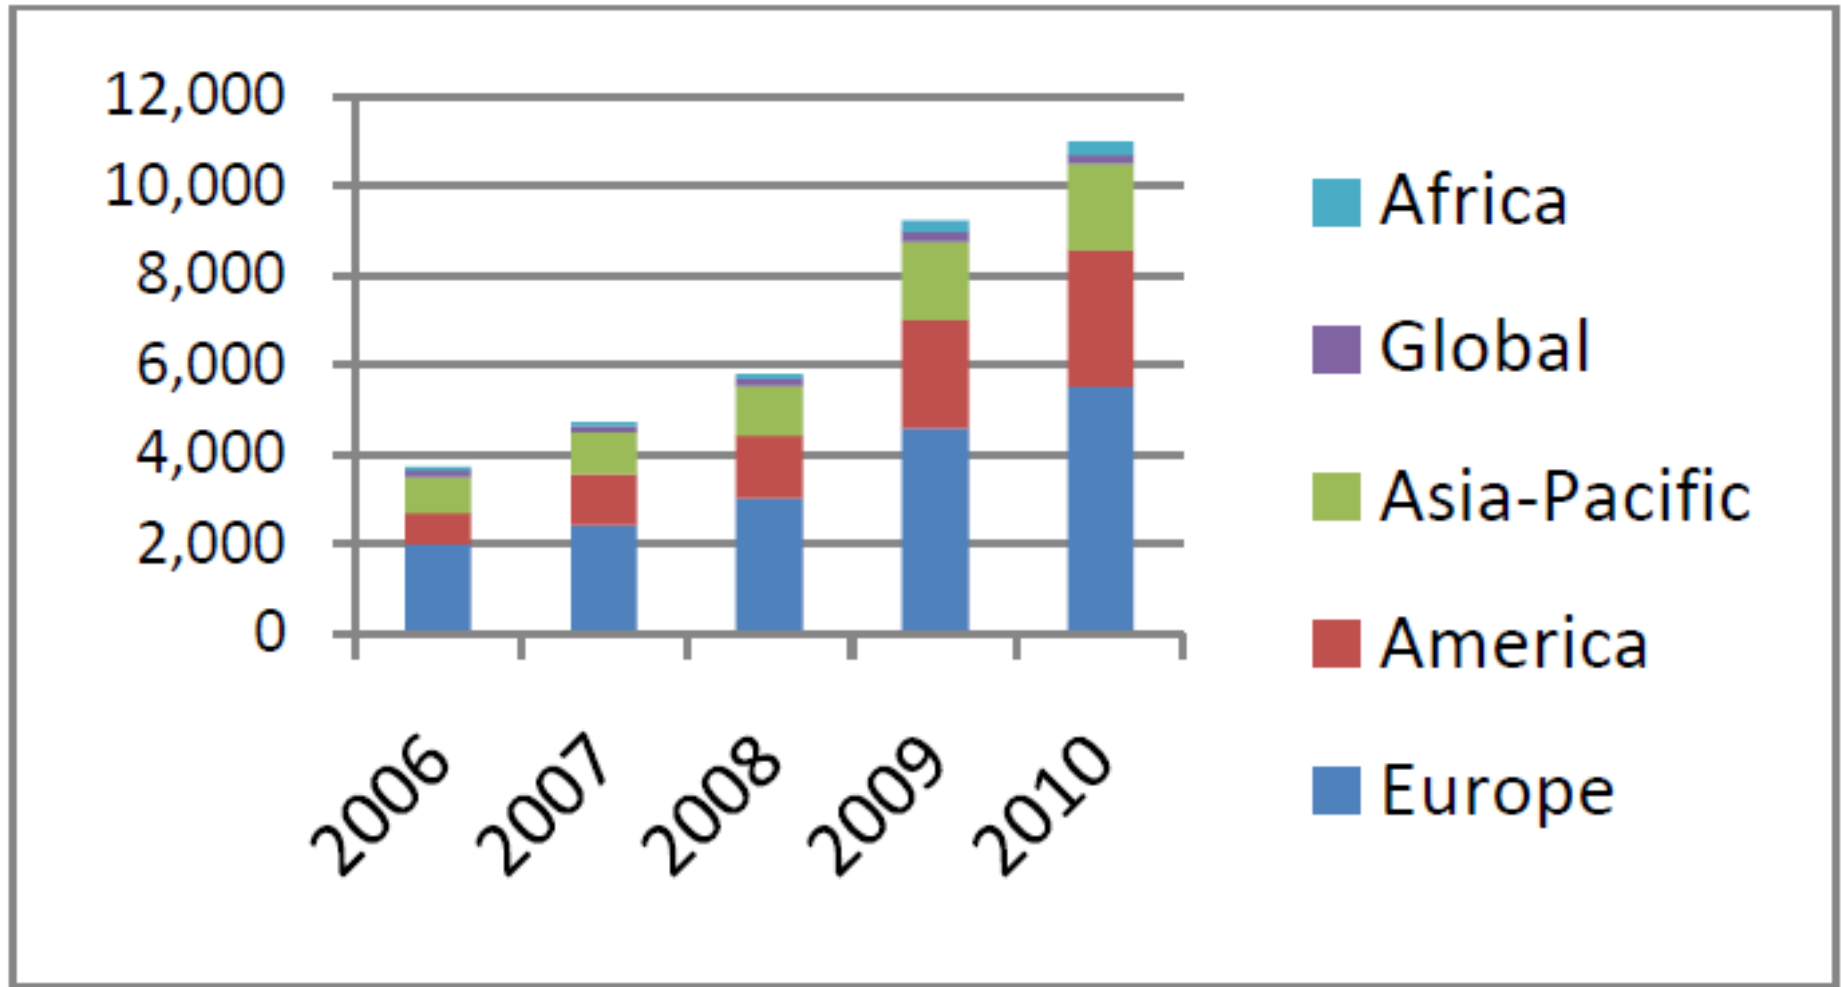

Regulations and product standards are changing or being introduced on a continual basis.

To expand your geographical footprint to maximize revenues and profits, you need to better understand various market access requirements for country entry and market expansion.

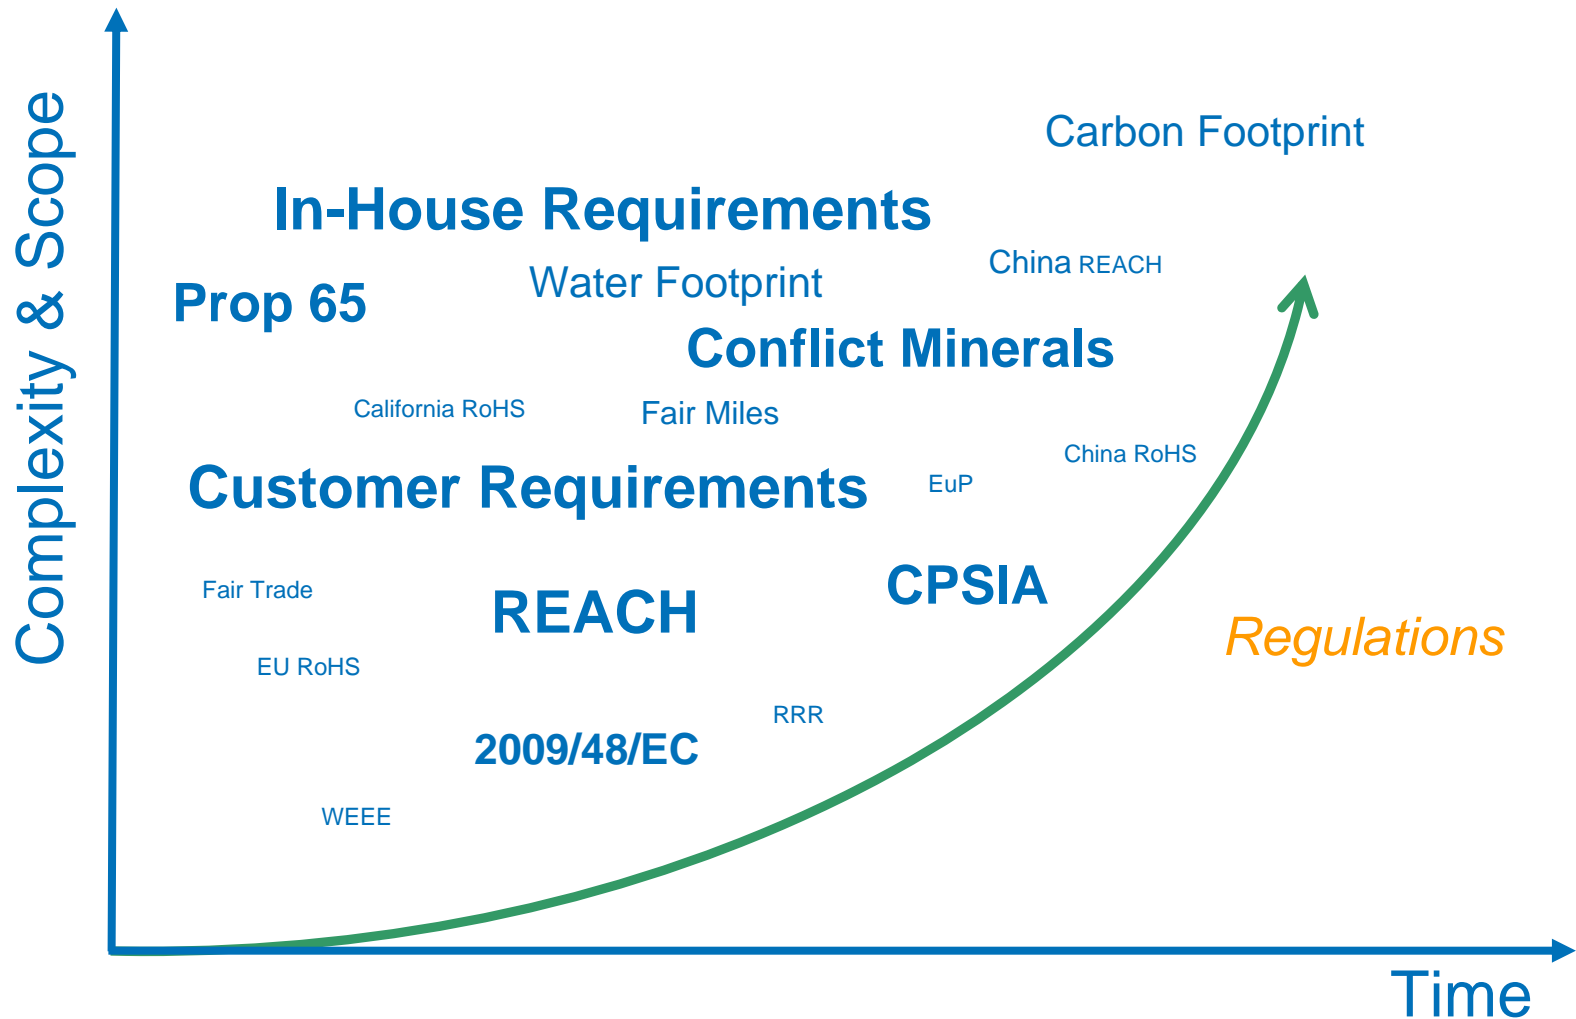

Manage the Quality Assurance Process and Related Documents and Technical Files
