

## INLAND TRANSPORT COMMITTEE

Working Party on the Transport of  
Dangerous Goods

(Seventy-first session,  
Geneva, 5-9 November 2001)  
Item 3 (d) of the agenda

Corrections to the restructured ADRNote by the Secretariat**CARRIAGE IN BULK OF SUBSTANCES OF CLASS 4.3**

The provisions contained in marginal 43 111 of the 1999 version of ADR appear in the restructured ADR under special provisions VV1, VV3, VV5 and VV7, as follows:

- 43 111 (1) "Solid substances and mixtures (such as preparations and wastes) of 11° (c) [UN No. 2950], 12° (c) [UN Nos. 1405 and 2844], 13° (c) [UN Nos. 1398, 1435, 3170 and 3208], 14° (c) [UN Nos. 1436 and 3209], 17° (b) [UN Nos. 1394 and 1402] and 20° (c) [UN Nos. 2968 and 2813] may be carried in bulk in specially equipped vehicles. The openings used for loading and unloading shall be capable of being closed hermetically." **is now VV5.**
- 43111 (2) "Aluminium smelting by-products or aluminium remelting by-products of 13° (b) [UN No. 3170] may be carried in bulk in well-ventilated sheeted vehicles." **is now VV3.**
- 43111 (3) "Aluminium smelting by-products or aluminium remelting by-products of 13° (c) [UN No. 3170], ferrosilicon of 15° (c) [UN No. 1408], calcium silicide in pieces of 12° (b) [UN No. 1405] and substances of 12° (c) [UN Nos. 1405 and 2844] in pieces may also be carried in bulk in sheeted or closed vehicles." **is now VV1 or VV7, if the substance is in pieces.**

As a consequence, to be consistent with the original provisions and harmonized with RID, the contents of Column (17) of Table A of Chapter 3.2 for UN Nos. 1405, 1408, 2844 and 3170 should be as follows:

UN No.	Column (17)
1405, packing group II	VV7
1405, packing group III	VV5, VV7
1408, packing group III	VV1
2844, packing group III	VV5, VV7
3170, packing group II	VV3
3170, packing group III	VV1, VV5

The contents of Column (17) are correct for the other UN numbers.
