
**ECONOMIC COMMISSION FOR EUROPE
INLAND TRANSPORT COMMITTEE**

Joint Meeting of the RID Committee of Experts and the
Working Party on the Transport of Dangerous Goods
(Bern, 26-30 March, 2007)
Item 3 of the provisional agenda

Working Document for the WG Standards

Transmitted by the European Committee for Standardisation (CEN)

1. With reference to the Document **ECE/TRANS/WP.15/AC.1/2007/19** where CEN listed all CEN documents proposed for comments on the CEN dedicated website, the CEN consultant has, until 23 February 2007, received only one comment, which is related to prEN 15551, Railway applications-Freight wagons, Buffers.

The assessments by the CEN consultant, as distributed by dispatch 1 and 2 is further input.

Appendix 1 will be used by the members of Standards WG during their “off-sessions” meeting to elaborate proposals to the Joint Meeting.

2. It is noted that the Standards WG is expected to be charged by the Joint Meeting with the preparation of proposals on how to proceed further with the standards on compatibility testing of packagings and IBCs, as requested by CEN in **ECE/TRANS/WP.15/AC.1/2007/12**.

B		<p>Les tampons à course de 75 mm et les tampons à plateaux circulaires ne sont pas repris dans ce projet de norme. Or ces types de tampon sont admis selon les fiches UIC 526-3 et 527-2 et existent toujours. La norme devrait donc être complétée pour tenir compte de ce type de matériel.</p> <p>(Other types of Buffers, which are allowed and used should also be included in the standard)</p>		<p>The requirements of 6.8.4 TE22 and UIC 473 are adequately covered by the requirements of Annex I.</p> <p>Comment on suggestion by B: The application of standards referenced in RID does not preclude other solutions in line with the legal requirements. Old solutions may be grandfathered.</p>
